CITIZENS TO BE HEARD – MATT ZOPPETTI AND SANTE D’AMBROSIO

Matt Zoppetti and Sante D’Ambrosio addressed the denial of the sidewalk and curb waivers and plan for their Pine Avenue Luxury Housing project. Nicole Pagliaro asked if Mr. Zoppetti could give a brief overview of the project. Matt stated that they have HARB approval to demolish the old Mainside Repair building and construct a new building. They have been going through the planning process. He showed a copy of the plans to Council. He expressed that the Planning Commission, his engineer, the town engineer and public works all have safety concerns if sidewalks were along the Whiteman Avenue side of the building. A door on the Whiteman Avenue side of the building has since been removed from the plan. Currently Whiteman Avenue is a two-way roadway approximately 15.5 feet wide. A minimum sidewalk width is 4 feet bringing the roadway width down to 11.5 feet making it virtually impossible for two-way traffic to pass. He noted that the sidewalks on Main Street and a lot of other areas of town are in the public right-of-way. He also wanted to clarify that this project is on a separate parcel from the lot located at the corner of Third Street and sidewalks would not extend all the way to Third Street. He feels the sidewalk would lead to nowhere. If the town wants to assume the liability for the sidewalks then he would cut a check tomorrow. He estimated it would cost approximately \$2,000. C. Howell asked why he doesn’t move the building. Matt stated that if he were to incorporate the sidewalks on his property it would result in the loss of the 16 parking spaces under the building. Structurally he cannot make it work; he doesn’t even have an inch to give. Matt then stated that his last offer is to take the 16 parking spaces away and add a cantilever and sidewalks.

Steve Coladonato of 210 West Third Street read aloud from ordinance 22-502. He also expressed that he understood that student housing in the commercial district was allowed on the second floor and above with a permitted use on the first floor and that parking is not a permitted use in any district. Mayor Knorr asked E. Fegley if he could explain. In this instance, the parking lot is an accessory use to the building which is permitted. The parking lot is also the current use.

Nicole Pagliaro, Bloomsburg University student, suggested Council make Whiteman Avenue a one-way street.

M. Zoppetti agreed. Council should incorporate the Comprehensive Plan, Parking Study and the one-way suggestion by closing Whiteman Avenue to make a pedestrian walkway. Council could put the \$2,000 in escrow and then decide at a later date whether to construct sidewalks or close the street, etc.

Elsa Speller of Bloomsburg, asked Mr. Zoppetti how many students would be living in the building and he answered there would be 60. She then asked where they would all park if every student had a car since only 16 parking spaces are planned. M. Zoppetti stated that he is not required to provide parking but went on to say that they have found that students that live on Main Street generally do not have cars or they could park on the adjacent lot for a fee. Mayor Knorr stated they could purchase a red meter permit.

Ray Vought of 360 East Second Street served on the Planning Commission where he was and still is in favor of sidewalks. He would like to see a study done for changing Whiteman Avenue to a one-way and a beautification walkway project.
