#### Elizabeth Dowd – 46 years of service at Bloomsburg Theatre Ensemble

Whereas, The Bloomsburg Mayor and Town Council of Bloomsburg wishes to honor Elizabeth Dowd upon her achievement of completing 46 years as a member of Bloomsburg Theatre Ensemble in service to the arts in Bloomsburg;

Whereas, Elizabeth envisioned a future where theatre could be an integral part of this community;

Whereas, Elizabeth dedicated her career to that vision and to the ideal that theatre should be accessible to all citizens;

Whereas, Elizabeth dedicated her time and talent to introducing children to the wonders of live performance by collaborating as a writer, director and actor in multiple Theatre in the Classroom productions which toured across Pennsylvania and neighboring states;

Whereas, Elizabeth brought the finest of herself as an actor and director to countless productions ranging from Shakespeare to modern drama, and from tragedy to broad comedy and farce;

Whereas, Elizabeth established and ran a Noh Theatre program in Bloomsburg for twenty years that was for many years the only one of its kind in the United States;

Therefore, I, Justin C. Hummel, Mayor and Town Council of Bloomsburg congratulate Elizabeth on her hard work and dedication to the arts in Bloomsburg and wish her a happy and fulfilling retirement. It is truly people like Elizabeth Dowd that makes Bloomsburg a special place.

THIS AGREEMENT is made this 10<sup>th</sup> day of June 2024, by and between the Borough of Danville (hereinafter the "Borough"), a Pennsylvania municipality having a principal address of 463 Mill Street, Danville, Pennsylvania, 17821, and the Town of Bloomsburg (hereinafter the "Town"), a Pennsylvania municipality having a principal address of 301 E. Second Street, Bloomsburg, Pennsylvania, 17815.

#### WITNESSETH:

WHEREAS, the Borough is a public procurement unit pursuant to Section 1901 of the Commonwealth Procurement Code, 62 P.S. §1901; and,

WHEREAS, the Town, with respect to the services to be performed pursuant to this Agreement, is also a public procurement unit pursuant to Section 1901 of the Commonwealth Procurement Code, 62 P.S. §1901; and,

WHEREAS, pursuant to Section 1906(b) of the Commonwealth Procurement Code, 62 P.S. §1906(b), the Town, as a public procurement unit, may provide the Borough, as another public procurement unit, with the types of services described above provided that the Borough compensates the Town for the expenses of the services in accordance with an agreement between the parties; and,

WHEREAS, the Town agrees to collect, accept, process, and market all provided recyclable materials generated from the Borough as outlined in this Agreement; and,

WHEREAS, the parties mutually desire to enter into this Agreement for the provision of curbside and drop off recycling collection services by the Town in exchange for payment by the Borough to compensate the Town for the expenses of said services in accordance with Section 1906(6) of the Commonwealth Procurement Code, 62 P.S. §1906(6);

**NOW THEREFORE**, in consideration of the mutual promises contained herein, and intending to be legally bound, the Borough and the Town agree as follows:

#### 1. Term

The term of this Agreement shall be three (3) years commencing on January 1, 2025 and terminating on December 31, 2027.

#### 2. Early Termination

Both the Borough and the Town may fully nullify all terms of this Agreement prior to the termination date of December 31, 2027 upon providing sixty (60) days written notice to the other party of its intent to do so. Termination under this section is not subject to any requirement of reasonableness or just cause.

# 3. Provision of Curbside Recycling

The Town shall provide curbside recycling collection services to all residential households in the Borough including one-family dwellings, two-family dwellings, three-family dwellings and multi-family dwellings.

a. A multi-family dwelling is a building or portion thereof containing more than three (3) dwelling units. A list of specified multi-family dwellings serviced with curbside recycling collection shall be provided to the Town by the Borough and shall be updated by the Borough from time to time as necessary.

#### 4. Curbside Collection Dates

The Town shall collect recyclables at curbside on the first (1<sup>st</sup>) Thursday of each month in First Ward, the second (2nd) Thursday of each month in Second Ward, the third (3<sup>rd</sup>) Thursday of each month in Third Ward and the fourth (4<sup>th</sup>) Thursday of each month in Fourth Ward (see Exhibit A for Recycling Collection Area Map). Where the scheduled collection day falls on a holiday, curbside collection shall occur on the Wednesday immediately preceding the scheduled day.

a. For the purposes of this section, holidays include New Year's Day, Independence Day, Veteran's Day, Thanksgiving, and Christmas.

#### 5. Curbside Collection Hours

The Town will collect recyclables in each ward between the hours of 8:00 AM. and 4:00 P.M. on the designated recycling days. Residents shall be responsible for placing recyclable materials to be collected at curbside by 8:00 AM. on the designated day.

#### 6. Missed Curbside Collection

Borough residents shall be responsible for informing the Danville Administration Office if their household was missed for recycling collection. In this event, the Borough will contact the Town by 9:00 AM. on the day following the scheduled curbside recycling collection day in question to provide a list of residents/households who were missed. The Town shall return the day following the scheduled curbside recycling collection day in question to collect the missed recyclable materials. An excessive amount or repeated incidents of missed households shall constitute a breach of this Agreement by the Town.

Should the day following scheduled curbside recycling collection be a holiday, the Town shall return the first weekday following the holiday to collect the missed materials.

#### 7. Preparation of Materials

It shall be the responsibility of the Borough to instruct residents on how to prepare materials for collection. If materials are incorrectly or insufficiently prepared, the Town may reject collection. In the event of rejection, the Town shall tag the materials in question with a rejection sticker provided by the Borough noting why materials were not collected. Minor violations shall not be grounds for rejection.

#### 8. Materials Accepted at Curbside

The Town shall collect the below materials at curbside. Borough residents shall be responsible for separating recyclable materials prior to collection. Materials grouped together in the following list may be placed together in the same collection bin.

- a. #1 and #2 Plastic
- b. Steel and Aluminum Cans
- c. Clear Glass
- d. Brown, Green, and Blue Glass
- e. Mixed Paper (Junk Mail, Cereal Boxes, Magazines, and Phone Books)
- f. Newspaper

## 9. Temporary Cancellation of Curbside Collection

The Borough reserves the right to temporarily cancel scheduled curbside recycling collection services due to adverse weather conditions, flood, or any other emergency

condition which, in the opinion of the Borough, would warrant cancellation of services in the public interest.

#### 10. Provision of Drop Off Recycling

The Town shall provide recycling roll offs for the drop off collection of recyclable materials each weekend beginning every Friday no later than 5:00 P.M. and ending every Monday no earlier than 7:00 A.M. The recycling roll offs shall be located on Borough-owned land of the Borough's choosing and is subject to change at the Borough's discretion. The Town is responsible for both drop off and pick up of the recycling roll offs. Upon pick up of the recycling roll offs, the Town is responsible for ensuring that the designated drop off recycling collection site is left in a clean, safe, and orderly state, free of all debris and recycling materials.

Drop off collection services are intended for use only by residents, municipal, and institutional entities located in the Borough. The Borough is responsible for posting signage at the designated drop off recycling collection site indicating such.

The Town shall not be required to staff the designated drop off recycling collection site.

## 11. Materials Collected at Drop Off

each month. These reports shall represent the previous month's activities and include the total weight of each type of materials collected at curbside and the drop off location.

#### 13. Employee Compensation

The Town shall be responsible for all wages, unemployment compensation, workers' compensation, and all other employment benefits and expenses pertaining to the services provided by the Town under this Agreement at no additional cost to the Borough from the agreed-upon amount provided herein.

#### 14. Volume Not Guaranteed

#### 15. Subcontracting Prohibited

The Town shall not subcontract any portion or all of this Agreement or assign any portion or all of this Agreement without the written consent of the Borough.

#### 16. Consideration

The Town shall charge the Borough the sum of \$48,524.73 in service year one for all services provided in accordance with this Agreement. Payment is to be billed and payable in twelve (12) consecutive monthly installments of \$4,043.73. Each payment shall be for the preceding month's services. The first payment is to be made on the fifteenth (15<sup>th</sup>) day of February 2025, and the last payment is to be made on the fifteenth (15<sup>th</sup>) day of January 2026.

As part of this multiple year contract, the annual collection costs will remain consistent throughout the three (3) years without increase.

If the Town fails to provide curbside recycling collection services, or if such services are cancelled by the Borough due to adverse weather conditions, flood, or any other emergency condition, the Town will receive a pro-rata payment from the Borough based on actual services performed. The value of one day of curbside recycling collection services is agreed to equal \$570.00. In the event that drop off collection services are not provided the weekly service rate will be calculated as the total contract price less the curbside collection annual cost to determine the annual drop off fee cost divided by 52 (the number weekly collections) to determine the weekly drop off service rate to be prorated for the monthly payment.

#### 17. General

The Town shall comply with the provisions of all federal, state, county, and municipal laws, ordinances, and regulations in performing services hereunder including, but not

limited to, laws, ordinances, and regulations pertaining to collection and disposal of recyclable materials, the Federal Resource Conservation and Recovery Act, and the Pennsylvania Municipal Waste Planning, Recycling and Waste Reduction Act of 1988.

The Town agrees to indemnify and hold harmless the Borough from any and all liability for any claim or cause of action, including any actual court costs, investigation fees, discovery costs, and attorney's fees incurred by the Borough in defending or prosecuting any such claim or cause of action, which may arise from the Town's performance or non-performance of its obligations under this Agreement.

The Town shall provide the Borough with copies of all certificates of liability, automobile, and workers' compensation insurances pertaining to services detailed in this Agreement.

This Agreement shall terminate before the expiration of the term set forth in Section 1, Term for any one of the following reasons or situations:

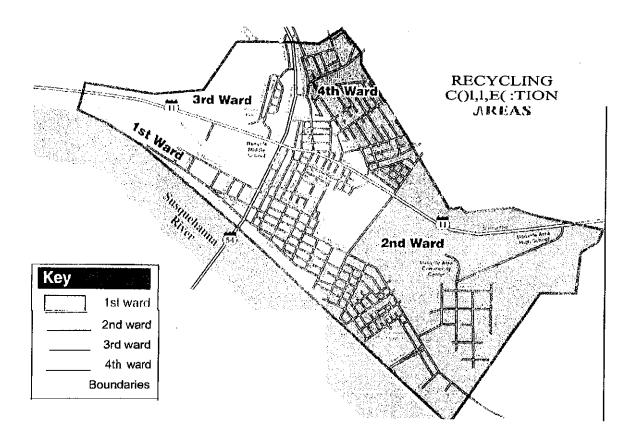

- a. In the event the Town engages in any illegal conduct or violates any municipal, county, state, or federal laws, regulations, or ordinances.
- b. In the event the Town fails to comply with all municipal, county, state, and federal laws and regulations concerning the collection and disposal of recyclables.

IN WITNESS WHEREOF, intending to be legally bound hereby, the Borough and the Town have caused this Agreement to be executed on their behalf by the undersigned, their duly authorized officers, agents, or signors.

#### **SCOPE OF SERVICES**

#### A. GEOTECHNICAL SERVICES

#### RETTEW will:

#### 1. FIELD EXPLORATION:

In order to complete an investigation of subsurface conditions, for the proposed structure, RETTEW will perform the following:

- a. Prepare a Test Boring Location Plan for field stakeout.
- b. Subcontract a driller to complete the installation of two test borings at the site. Driller will mobilize to the site with one setup of track-mounted drilling and support equipment (rig and water truck), complete test boring drilling operations, restore disturbed ground to original condition, and demobilize from the site.
- c. Monitor and log the drilling of up to two borings.
- d. Utilize a RETTEW Geoscientist (geologist) to provide full-time on-site inspection of the test boring operations. For each test boring, continuous soil sampling will be conducted from grade to 10 feet below grade, and then on 3-foot centers to 25 feet below grade or auger/split-spoon refusal. No boring shall terminate in soft soil, fill, coal, or organic material. Minimal rock coring is anticipated to be required for the project.
- e. Measure and record the ground water levels in the borings immediately following completion of the borings. All boreholes in grass areas will be backfilled to the pre-bore elevation with soil cuttings and returned to approximate original conditions following final groundwater observations.
- f. Demobilize the drill rig upon completion of the borings. Drilling is estimated to require one working day with a total of up to 50 linear feet (LF) of drilling of soils and bedrock. The Client will be notified if conditions warrant test boring extension, or test boring addition, prior to demobilization.

#### 2. LABORATORY TESTING

RETTEW will retain a testing lab to perform the following laboratory tests on selected samples:

- a. Up to eight Moisture Content Tests (ASTM D2113)
- b. Two Engineering Classification Tests with Atterberg Limits (ASTM D2487 with ASTM D4318)
- c. Up to four pH tests of soil (ASTM D4972)
- d. Up to four sulfate tests of soil (ASTM D516)
- e. Up to four chloride tests of soil (ASTM D512)
- f. Up to four soil resistivity tests (ASTM G57).

#### ENGINEERING

RETTEW will evaluate the results of the subsurface exploration and laboratory testing in accordance with generally acceptable geotechnical engineering standards. The following analyses and recommendations will be addressed:

Page 2 of 2 Town of Bloomsburg May 21, 2024 RETTEW Project No. 0604900416

- A summary of the subsurface conditions (soil, rock, groundwater, etc.) encountered and an assessment of their effects on the measured settlement of the proposed structures.
- b. Test Boring Records for each boring will be prepared.

#### 4. GEOTECHNICAL ENGINEERING REPORT

RETTEW will prepare one report for the site summarizing the results of the subsurface investigation, soil, and engineering analysis, and then submit a report titled "Geotechnical Engineering Report" to the client.

Deliverable: PDF of the Geotechnical Engineering Report.

#### B. RACKING MANUFACTURER DESIGN SERVICES

RETTEW will:

- 1. Production of sealed structural drawings and specifications from chosen racking manufacturer. These documents will include drawings and specifications for:
  - a. Foundations
  - b. Structural Canopy System
  - c. Racking System, including mounting hardware.

Deliverable: Sealed structural drawings and specifications.

#### **ASSUMPTIONS**

The following is a list of assumptions that apply to this proposal:

- The client will provide contact information and right-of-entry from the site property owner(s).
- Traffic controls are not anticipated to facilitate the subsurface geotechnical investigation.
   Costs for a flagging crew are <u>not</u> included. The project area will be accessible to track-mounted equipment in the area of the proposed work.
- 3. PA One-Call will be notified for utility marking/clearance on the public right-of-way at least 72-hours in advance of excavating (drilling) activity by either RETTEW or subcontractor. The owner will be responsible for the location and marking of private underground utilities on the property.
- 4. All field work will be conducted under the Occupational Safety and Health Administration's (OSHA's) Personal Protection Equipment (PPE) Level D Standard.
- The site is accessible to track-mounted drilling equipment and support vehicles.
- 6. No existing above ground or below grade structures are located on the property that would impede the geotechnical evaluation.

Re: Bid Recommendation

2024 Paving Project

Dear Lisa.

On Thursday, June 6th a public bid opening took place online at the PennBID website for the above referenced construction project. After reviewing the required documents and unit prices submitted by each contractor, the low base bid was submitted by M&J Excavation with a bid of \$244,416.75; the lowest base bid and the Lockard Avenue full depth restoration alternate was submitted by Riteway with a bid of \$307,470.46. Please refer to the tabulation of bid results enclosed.

Also enclosed is a copy of the bid summary items and bid tabulation.

Based on the bid value and supporting information provided by the contractor, we recommend that if the Town awards the base bid, to proceed with awarding the project to M&J Excavation, but if the Town awards the base bid and Lockard Avenue alternate, to proceed with awarding the project to Riteway. If action is taken by Council I will finalize the attached draft Notice of Award form, and subsequent Agreements.

Please feel free to contact me with any questions or concerns. I can be reached at 570-560-2876 or via email at abarton@livicco.com.

Sincerely,

Andrew J. Barton, P.E. - Principal LIVIC Civil

Dear Lisa Dooley,

Thank you for your correspondence we received on April 16, 2024, regarding your request to implement a "Right Turn Only" condition at the intersection of State Route (S.R.) 11 and Railroad Street in the Town of Bloomsburg.

We have conducted and in-depth analysis at this intersection, the results of our review indicate a "Right Turn Only" condition is justified on Railroad Street for the northbound and southbound approach to S.R. 11 due to the amount of through and left turn crashes.

Since this portion of Railroad Street is owned by the Town of Bloomsburg, the town will be responsible to purchase, erect, and maintain the required signing to post the restriction. In accordance with our statewide regulations found in 67 Pennsylvania Code, Publication 212.5(d)(1), the Department is responsible for approving traffic control at intersections of locally owned roads with state-designated highways.

As seen on the on the attached, the signs we are recommending to be installed below the stop signs on Railroad Street at this intersection are the "All Traffic Must Turn Right" (R3-7-1R) signs. It is also recommended that a warning sign be erected approximately ¼ mile ahead of the restriction on Railroad Street for the northbound direction at the 5<sup>th</sup> Street intersection to give motorists and advance warning of the restriction. These signs would be the "All Traffic Must Turn Right" (R3-7-1R) sign with a "1/4 Mile Ahead" plague (W16-103P) mounted below it.

It is also recommended that the town of Bloomsburg contact and inform any production facilities or business that use this intersection for shipping purposes of the restriction that will be put in place, before it is enforced, to minimize any confusion and they can prepare for the situation.

Attached, please find screen shots showing the signs and locations needed to post the restriction, a form to be filled out by the town and returned to this office when the signing work has been completed, a copy of the regulations governing installation of these signs, and a list of state-approved sign manufacturers where the signs must be purchased.

Thank you again for sharing your thoughts regarding this issue. Should you require any additional information, please contact me at 570.368.4210.

# BLOOMSBURG POLICE DEPARTMENT – PARKING ENFORCEMENT PRESS RELEASE

301 E 2<sup>nd</sup> Street – Bloomsburg PA (570) 784-6779 Press 1 for Parking

# **BLOOMSBURG PARTNERS WITH PASSPORT**

## **EFFECTIVE JULY 1, 2024**

- The Town of Bloomsburg is introducing Passport, a new, easy-to-use mobile payment application to replace Pango.
- During the transition period (June 15-30, 2024) meter enforcement will cease temporarily. It will resume July 1, 2024.
- You will be able to pay for parking sessions once you download the free Passport Parking app from the App Store or Google Play. Or go to <a href="https://www.passportparking.com">www.passportparking.com</a> for step by step instructions.
- Signs will be placed throughout town to indicate the one and only zone for the downtown area. (1850) and one other zone for E 2<sup>nd</sup> Street in the vicinity of Bloomsburg University (1851).
- When you choose the zone in the app, the screen will advise you of the costs, time restrictions and choices for length of stay. You will be able to add time from a remote location.
- If you drive multiple vehicles you can add them all in the app but must choose the correct license plate when you pay to park. Enforcement is done by license plate.
- There will be over 220 meters in the downtown as a coin choice should you choose not to use the app.
- Passport will also handle the payment of parking tickets and the link will be on the ticket, should you receive one.
- Effective July 1, 2024 parking rates will increase to .75 per hour for the downtown Zone 1850 and 2.00 per hour for E 2<sup>nd</sup> Street Zone 1851.
