Also present was MJ Mahon.

Josh McKenzie from 7 Mountains Media was present through Zoom to discuss the website problems that have been occurring. He is saying if we change settings on the computer or the ISP from Service Electric and PenTeleData it could fix the issue. However, the company is looking to see instead of Google Cloud if they can find a network mitigation for the cache data on the DNS Service side.

On a motion by N. McGaw, seconded by B. Crawford, and voted on unanimously, the Committee approved the minutes from the June 19, 2024 meeting.
